

## USE OF RECYCLED CONTENT IN ORIGINAL HP INK CARTRIDGES

### NOVEMBER 2010

HP uses recycled plastic in the manufacture of Original HP ink cartridges.

Original HP ink cartridges have been engineered to use recycled plastic and still meet HP's demanding standards for quality and reliability. The HP "closed loop" ink cartridge recycling process is the first and only of its kind, combining recycled HP ink cartridge material with other material such as recycled water bottles to create new Original HP ink cartridges. For HP ink cartridges that use recycled materials, up to 70 percent of the cartridge is made from recycled content.<sup>1,2</sup>

Use the links below to see a list of Original HP ink cartridges available in your region that are manufactured with recycled plastic.

[North America, Latin America, Asia Pacific](#)

[Western Europe](#)

[Commonwealth of Independent States, Mongolia, Middle East, Africa](#)

[China, India](#)

1. Percentage of recycled material is based on empty weight.

2. HP uses recycled plastic from the HP "closed loop" ink cartridge recycling process when supplies are available. Recycled plastic is also sourced from other recycle streams such as recycled water bottles.

## NORTH AMERICA, LATIN AMERICA, ASIA PACIFIC
